Supplemental Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) s 1-9, and 20 drawn to a microporous film.

Group II, claim(s) s 10-18, drawn to a method of making a microporous film.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is anticipated or obvious over Higuchi et al (US 5,385,777). As the recited structure does not make a contribution over the prior art, unity of invention is lacking and restriction is appropriate.

Since the reasoning for restriction in the written restriction letter mailed on 05/09/2003 is improper, a supplemental restriction letter is deemed necessary.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
